Introduction and Services

BTE Consulting Pty Ltd is a Hunter Valley based Civil Engineering Design Consultancy, founded in 2020.

BTE Consulting was founded on its business values of collaboration with our clients to deliver successful project outcomes, where both our clients and staff work together as one team to achieve a common goal. At BTE Consulting, we aspire to create positive impacts within the community and contribute to the delivery of built environments which are safe for all users.

BTE Consulting's commitment to our clients is that our work will always be of exceptional quality in design, presentation, documentation, management and communication. BTE Consulting deliver on time, on budget and to your expectations.

We provide services across the civil engineering sector with proven capability in:

- Road design (including minor to major works);
- Intersections;
- Cycle paths, shared paths and foot paths;
- Subdivisions
- Civil infrastructure design;
- Bulk earthworks;
- Temporary works design;
- Compliance reviews;
- Drafting services;
- Vehicle turn path reviews and carpark optimisation;
- Road Safety Auditing; and
- Project Management.

These capabilities encompass feasibility design through to construction stage.

In addition to BTE Consulting's capabilities, we have formed trusted relationships with our business partners and support personnel who offer a wide range of services to ensure the best outcome on the projects we deliver.

These services include;

- Planning and advisory;
- Transport
- Structural engineering
- Building services;
- Surveying
- Geotechnical services;
- Drainage investigation
- Flood analysis
- Electrical;
- Landscape design; and
- Quantity surveying.

BTE Consulting's Director

BTE Consulting's Director Thomas Brown has 18 years' industry experience on a wide range of multidiscipline arterial and local government road works and civil infrastructure projects for a range of clients in the private and public sectors.

Thomas holds qualifications and accreditation in:

- Diploma of Civil Construction Design;
- Diploma of Project Management;
- Diploma of Quality Auditing;
- Lead Road Safety Audits (IPEWA NSW);
- Is a level 3 registered Lead Road Safety Auditor in NSW; and
- Is a registered Senior Auditor in QLD.

CV's are available upon request.

To discuss how BTE Consulting can help you to achieve your goals contact Thomas on the below details.

Yours sincerely,

Thomas Brown
Director
