ABOUT BTE CONSULTING

Practical civil engineering. Clear project outcomes.

BTE Consulting is a Hunter Valley-based civil engineering design consultancy, established in November 2020. We work with public and private sector clients to deliver practical, well-documented solutions across road, transport and civil infrastructure projects.

COLLABORATIVE

We work with clients and project teams as one team, focused on a common outcome.

QUALITY-FOCUSED

Strong design, presentation, documentation, management and communication.

DELIVERY-MINDED

A commitment to delivering on time, on budget and to agreed expectations.

Core capability

Road & Civil Design

- Road design - minor works through to major road projects
- Intersections and interchanges
- Cycle paths, shared paths and footpaths
- Civil infrastructure design
- Bulk earthworks
- Utility coordination

Transport & Safety

- Vehicle turn path reviews
- Carpark optimisation
- Road Safety Auditing
- Compliance reviews
- Temporary works design
- Route logistic Assessments / Traffic Impact Assessments

Project Delivery

- Feasibility design through to construction stage
- Drafting services
- Project management
- Design presentation and documentation
- Coordination with specialist disciplines

Capability from feasibility design through to construction stage.

INTEGRATED PROJECT SUPPORT

Flexible capability backed by trusted specialists.

Where a project requires broader specialist input, BTE Consulting works with trusted business partners and support personnel to help coordinate the right capability for the project.

Landscape design	**Quantity surveying**	

Management systems

QUALITY
ENVIRONMENT
OHS

BTE Consulting places the highest level of commitment behind our quality, health, safety, and environmental policies and procedures. These policies and procedures are captured in our Integrated Management System and form the background of our ISO 9001 (Quality Management System), ISO 14001 (Environmental Management System) and AS/NZS 4801 (Occupational Health and Safety Management System) certification.

BTE Consulting's Integrated Management System covers our management of quality per the requirements of ISO 9001:2015 (Quality Management System). On typical professional service contracts where BTE Consulting is directly responsible for delivering projects, this includes a requirement that all project documents are checked and verified by a suitably experienced team member before being issued to you as the client.

How we support project delivery

01	**Understand**	Clarify the project objectives, constraints and required outcomes.
02	**Coordinate**	Work closely with clients, project teams and specialist partners.
03	**Deliver**	Prepare practical designs and clear documentation suited to the project stage.
04	**Support**	Provide responsive technical input from feasibility through to construction.

DIRECTOR

Experienced leadership. Personal project involvement.
